NEWS SUMMARY. City Affairs.

-Last evening the third anniversary of the Americus Club was celebrated by a banquet at Musical Fund Hall.

-Henry Russell was found in an apparently dying condition yesterday, at Ninth and Ellsworth streets, and removed to the Blockley

In the Truman case the Coroner's jury rendered the following verdict vesterday: -That the said Henry Truman came to his death from violence (a gunshot wound in the abdomen), received at the hands of William Whiteside, in Cross alley, on the evening of March 31, 1870." Constable Whiteside, who was present, in custody, was committed to answer. The witnesses who testified to the shooting were colored, with the exception of one, who was a white girl, living in the vicinity of Cross alley.

—Yesterday, among the members of the Produce Association, the rule relative to deposits went into effect:-Barrels, 25 cents; boxes, 25 cents; bags, 25 cents; berry chests of 45 quarts, \$2; from 45 to 60 quarts, \$2.50; peach baskets, 50 cents.

-A meeting of sailmakers took place last evening at the Hope Hose House, for the purpose of receiving the report of the committee appointed to wait upon the master sailmakers in reference to the proposed reduction of wages and classification of the employes. The report sets forth that after an interview with the employers they had consented to continue the wages as heretofore, \$3 per day for ten hours' labor.

-Alderman Charles M. Carpenter yesterday committed to prison Mrs. Virginia Hubert, who was charged, on the dying declaration of Mrs. Kate Moralis, with having produced her death by malpractice. The affidavit was taken by the Alderman at 9 o'clock yesterday morning, and Mrs. Moralis died at 11 o'clock A. M., at the residence of her parents, Haywood place, rear of No. 914 Hamilton street. Mrs. Hubert was arrested by the Alderman's constable, immediately after the death, as she was about escaping from the rear of her house, her husband alleging that she was sick when interrogated as to her whereabouts. Detectives Franklin and Tryon searched the house for evidences of the crime, but found none. Dr. Shapleigh attended the case, having been called in on Wednesday evening. The alleged offense took place about one month ago. The lady had been attending to her usual duties until Saturday last, since which time she had been gradually sinking until the time of her death, as stated. At 5 o'clock yesterday Drs. Shapleigh, Hunter, and Packard made a postmortem examination of the deceased, the result of which will be detailed at the investigation to be held by Coroner Taylor on Monday afternoon at 3 o'clock.

Domestic Affairs. -Gold closed yesterday at 1115. -The election of Senator Gilbert, from Florida, is contested by Mr. O. B. Hart.

-General Ames was admitted vesterday to his seat as Senator from Mississippi.

—Mr. Morton introduced in the Senate yesterday a bill to enforce the fifteenth

amendment. -Two persons were killed and several others wounded by a boiler explosion at New

Haven, Conn., yesterday.

—The public debt statement, just issued, shows that during March our national indebt-

edness was reduced by \$5,766,349. -Work will be resumed at the Avondale mines on Monday. Every precaution for the safety of the miners has been taken. -In token of his friendship the Sultan of

Turkev is having woven a magnificent carpet for the East Room of the White House. -Evidence is in the possession of the Navy Department that the Bonsbay, and not

the Oneida, was to blame for the disastrous collision. -By a majority of one the United States Supreme Court has decided to reopen the

legal tender case. Arguments will be heard on the 11th inst. By the first of May, it is said, the decision will be reversed. -Evening sessions of the House for gene-

ral debate are played out. Last night only five members entered an appearance, but two of whom seemed to have anything of which they wished to disburden their minds. -The President, Secretaries Fish and Bout-

well, Senator Sumner, General Fremont and other prominent men were serenated last evening for their action in connection with the ratification of the fifteenth amendment. -The American Anti-Slavery Society-the

object for which it was organized having been accomplished-is to be dissolved. Its last meeting, to take the form of a commemorative jubilee, is to be held in New York on the 9th instant.

Earden Affairs. -A Ministerial crisis is imminent in Italy.

-Irish affairs were discussed at great length in the British Parliament yesterday. -Oxford's crew is allowed to be the best but the Cambridge men are improving ra-

-A great demonstration is to be made in Madrid to-morrow against military conscription.

-Reports say the Vatican has rejected the Turkish overtures in favor of the Armenians.

-Emigration from Ireland to the United States has largely increased within the past few days.

CREW BERRES.

SUITABLE SUITS. SUITS for young, suits for old. Surrs in number, manifold; SUITS for grave, suits for gay. SUITS, the fashion of the day: Surrs of fancy, suits that's plain,

Suits, of which you'll ne'er complain; SUITS to suit all sorts of folks. YOUR SPRING SUIT BUY AT CHARLES STORES'. No. 824 CHESNUT STREET.

A NEW YORKER named STACK has fately opened a sample room in Gold street, above Second, where merchants and business men generally can partake of a lunch, consisting of all the delicacies of the season. ROBERT STACE caters strictly for gentlemen, his viands being superior. No "tangle-leg" sold on the premises. Connoisseurs in Izaak Walton's gentle art (trout fishing) should inspect his quaint selections of lines, flies, etc.

DRY FEET.-The most effectual way of guarding one's alth is to keep the feet dry, and that can only be done by the use of India Rubber Overshoes, and as the incle ment season is upon us, we would advise our readers to buy none but the best quality, which can only be had at GOODLEAR'S Headquarters, No. 308 Chesnut street, south

MR. WILLIAM W. CASSIDY, the jeweller at No. 12 S. Second street, has one of the largest and most attractive stocks of all kinds of Jewelry and Silverware in the city. He has also on hand a large assortment of fine American Western Watches. This entire valuable stock is now being sold out below cost, preparatory to removal. Those who purchase at this store at the present time are certain to get the worth of their money

SINGER'S FAMILY SEWING MACHINES,

Ten dollars cash. Balance in monthly instalments.

O. F. DAVIS, No. 810 Chesnut street, RUBBER OVERSHOES AND BOOTS for Men, Women, and Children, can be had at retail at the very lowest prices.

Goodyear's manufacture, old stand, No. 208 Chesnut

street, lower alda.

cerren shores, and eropping out from wave-washed "That stand for out in ocean like pilgrims from the land."

Here, if disposed to sir our botany, we might votanteer a technical description of the varieties of the crypt gam'e order to which the sea lichens belong; but our present object being simply uti'itarian and practical, we only propose to show that the more valuable of all the sen messes—the Carrageen or Irish Moss—has been rendered, by a now process of manufacture, far superior to any article of its class herotofore introduced either in Europe or America,

The new preparation of this marine vegetable (if it may

A FOOD TREASURE FROM THE SEA.-If the sea in its

what has swaffewed up an enormous amoust of pro-perly, it has more than balanced the account by giving

is in ruturn many inestimable treasures. One of these

is the notificious as a moss growing upon its otherwise

be so called) was patented only a few weeks ago under the name of SEA MOSS FARINE, and its purity, palatability, and extraordinary nutrimental properties are attested by competent scientific authority, and by those still more potential evidences of excellence—general popularity and extensive sales. The addition to our national bill of fare of an article which is claimed to be pre-eminently econo-mic, as well as peculiarly wholesome, nourishing, and delicious, is a matter of great interest to the public, and, therefore, a proper subject of newspaper comment. Accordingly, the attention of the press, in all parts of the country, has been attracted to this new product, or rather this new manufacture of a natural product well known to the scientific world for its fattening, strength sustaining qualities. Editors and news-paper correspondents in all parts of the country seem to have investigated the merits of the Sea Moss Farine pretty thoroughly. It has been subjected to the experi mentum crucis is numberless kitchens, and to the criti-cism of numberless epicurean palates, and the result, as far as we can judge, is a universal verdict in its favor. It has been placed, so to speak, in the front rank of our food staples, and all that has been said of it by the pat-entes (Mr. Rand), and the Company interested in its sale, appears to be approved and confirmed by public

Its uses, as set forth by the reports of scientific ex perts, are many and various. In the first place, when em ployed in the preparation of puddings, custards, blanc mange, creams, graels, and scores of other delicacies for the family table or the sick room, it adds largely to the quantity of nutriment derivable from the other materisks; and in the second place renders the disk, whatever it may be, far more digestible and agreeable to the taste than it would have been without this cheap and pure ingredient. Such is the testimony of a large number of the most prominent hotel-keepers in New York and other cities, and of a committee appointed by the Farmers' Club of the American Institute to pronounce judgment or the new edible. The committee of ladies, among whom was an eminent medical graduate and the wife of the Secretary of the Institute, state in their report that a packet of Sea Moss Farine, costing twenty-five cents, will produce, when combined with milk in due propor tion, full sixteen quarts of blane mange, while a packet of corn starch, maisons or faring, costing sixteen cents. will only produce, with the like quantity of milk, from four to six quarts-thus showing that the new food staple is actually worth, as a means of nourishment, about one hundred and Afty per ceat, more than the heretofore popular preparations from maize and grain. It is also stated that it has none of the heating properties of ordinary farinaceous food, and is digested and assimilated with wonderful rapidity.

As far as we can judge, the conclusions at which the scientific world, the press, and the public have arrived with regard to Rand's Sea Mess Farine are founded on incontrovertible facts, and we have no hesitation in warmly recommending the article to our readers as an essential of the economic cuisine, and as a genuine luxury. To dyspeptics we feel assured it will prove an invaluable blessing. It is manufactured by a company with ample means (located at No. 53 Park place, New York), known as the Sea Moss Farine Company

MEDICAL.

THE UNIVERSITY MEDICINES ARE THE FAVORITE PRESCRIPTIONS OF THE

New York Medical University. Reliable Remedies of a high Scientific character, designed for the cure of all diseases.

PREPARED STRICTLY ACCORDING TO THE LAWS OF MEDICAL CHEMISTRY.

The University Medicines are prepared in consonance with the views of a number of distinguished living American Physicians, who believe that the time is come when educated Physicians should arise and make a decisive effort to overthrow the health-destroying system of Quackery prevailing in every town and city, and substitute SCIENTIFIC RESPONSIBLE REMEDIALS, in place of the worthless or dangerous Patent Medicines flooding the country.

SCIENTIFIO RESPONSIBLE REMEDIALS, in place of the worthless or dangerous Patent Medicines flooding the country.

These remedies are prepared by the newly discovered Obemical process of Professor Scott, termed STEAM FILTRATION, by which the entire Active Principle of any herb, drug, or chemical is thoroughly extracted, and its curative properties increased a hundred fold over those made in the ordinary manner.

They are standard, most of the ingredients constituting them baving been used by the physicians of the University, in their private practice, for more than twenty years. Although but recently brought before the public in their present form as FIRESLE REMEDIES, they are rapidly superseding the old poisons, Patent Medicines and Nauscons Drugs.

They are taken in small doses.
They are taken of the distinct class of maladies.

We have no one CURE ALL for all diseases, but a regular system of Kemeeies for each distinct class of maladies.

edges, \$175.

These ballads, first published in periodicals, rapidly achieved a whimsical popularity which soon demanded their publication in a collected form. Much of this is due to the series of inexpressibly funny drawings by the author, who is happy in being at tist enough to interpret his own humor in these admirable sketches, which we pity the man who cannot appreciate and enjoy them. While the Ballads themselves will rank with the best of Thackeray, Bon Gaultier, or Ingoldsby, the illustrations will favorably compare with those of Leech, Phiz, Lear, or Dore. It deserves a prominent place on the book-shelf with the wittlest authors. Let every one who in those dult times has the blues procure a copy as the cheapest remedy. While it is a nearly perfect fac simile of the English copy, it is only half the price. COTTON WOOL, AND MERINO HOSIERY. LEGAL NOTICES.
